OBJECTIVE

To secure a position as a software developer where I can utilize my programming skills, problem-solving abilities, and passion for technology to contribute to innovative projects and grow professionally

EDUCATION

Master of Computer Application [MCA], V.S.M [A] college, East Godavari **2023 - 2025**
CGPA: 8.3/10 AP, India

Bachelor of Science in Data Science, V.S.M [A] college, East Godavari **2020 - 2023**
CGPA: 8.1 AP, India

SKILLS

Programming Languages	Python, HTML, JavaScript
Frameworks/Libraries	Bootstrap, Django, Reactjs
Databases	SQL, SQLite
Developer Tools	Git/Github, VS Code, Pycharm

EXPERIENCE

Internship Experience | Remote **March 2025 – August 2025**

- Developed a restaurant website using ReactJS, HTML, CSS, and Python to enhance front-end development skills and gain hands-on project experience.[\(Link\)](#)
- Redesigned and built a responsive mortgage calculator using ReactJS, improving usability and accessibility. Integrated visual EMI breakdowns, instant feedback, and gathered focus group insights for refinements.[\(Link\)](#)
- Built an interactive To-Do List web app using React.js with features to add, edit, delete, and manage tasks. Implemented separate pending/completed lists and icons for improved UI/UX.[\(Link\)](#)
- Currently developing a student portal with login, course management, and feedback features, using ReactJS with responsive UI and backend API integration.

PROJECTS

Online Mortgage Calculator: Redesigned and built a responsive mortgage calculator using ReactJS, improving usability and accessibility while integrating EMI visualizations, instant feedback, and agile collaboration.
[\(Project Link\)](#)

Restaurant Website : Passionate fresher developer with skills in ReactJS, HTML, CSS, and Python. Recently developed a restaurant website using ReactJS to enhance front-end development skills and gain hands-on project experience.. [\(Project Link\)](#)

Todo List: Developed an interactive To-Do List web app using ReactJS with features to add, edit, delete, and manage tasks, including separate pending/completed lists and icon-based UI for better user experience.[\(Project Link\)](#)

CERTIFICATES

- Advanced Software Engineering [**Walmart USA**] – Designed an ERD for Walmart's Pet Department database, enhancing skills in software engineering, database design, and system analysis.
- Software Development Job Simulation [**Datacom**] – Completed tasks in software review and bug fixing, strengthening coding skills and preparing for real-world software challenges.
- Front-End Software Engineering Job Simulation[**Skyscanner**]-Worked on front-end development tasks, enhancing UI/UX, React component logic, and practical software engineering skills in a simulated job environment..
- Banking Group's Technology Engineering [**Lloyds**]- Developed and deployed a mortgage calculator using HTML, CSS, JavaScript, and Azure, improving web development, cloud skills, and code management efficiency.
